Novo Nordisk Taiwan Management Team- Spring party portrait

## The narratives

Through the three narratives: life, change and careers – we tell the story of what it's like to work at Novo Nordisk.

# life

## Our purpose

We are a global healthcare company and life is our reason to exist. This is why we're all here, to ensure people can lead a life independent of serious chronic diseases – millions rely on us. Inspired by life in all its forms and shapes, ups and downs, opportunities and challenges.

*All those moments that matter.*

# change

## Our motivator

Change is everywhere – change in lifestyle, change in technology, change all over. We don't wait for change, we drive change – to help patients around the world who are living with serious chronic diseases. It's about every moment.

*Not later. Not tomorrow. Now.*

# career

## Our people

We are our people, and the mission we share together. Our forward-thinking delivers opportunities to realize your potential. This is your moment. Here we don't stand still, we never give up – we make an impact. We're trusted to have the courage. Together we make it happen.

*All those moments that matter.*
